AAC BLOCKS

GREAT VARIETY OF AAC PRODUCTS

AIRCREETE EUROPE PRODUCT PORTFOLIO
BLOCKS
NORMAL BLOCKS

Aircrete Blocks are a universal building product. They can be produced with either sand or fly-ash as a raw material input and are manufactured in different shapes and sizes, depending on your local market.

- High level of dimensional accuracies (<1mm)
- Handgrips or tongue/groove profiling
- Easy application for non-load bearing structures
- Great alternative to brick masonry

Dimensional accuracy: as per EN 77-4 for thin layer mortar TLMB table 2
Aircrete Blocks are a universal building product. They can be produced with either sand or fly-ash as a raw material input and are manufactured in different shapes and sizes, depending on your local market.

- High level of dimensional accuracies (<1mm)
- Easy application for non-load bearing structures
- Great alternative to concrete flooring

Aircrete Blocks are a universal building product. They can be produced with either sand or fly-ash as a raw material input and are manufactured in different shapes and sizes, depending on your local market.

- Flexibility and freedom in interior design
- High level of dimensional accuracies (<1mm)
- Easy application for non-load bearing structures
- Great alternative to brick masonry
With decades of experience and sales in over 100 different AAC plants in 20 countries on 6 different continents, Aircrete Europe is the recognized global leading developer and manufacturer of Autoclaved Aerated Concrete (AAC) machinery and technology for the production of AAC panels and blocks.

We design and deliver the most innovative turn-key AAC plants and cutting-edge plant technology around the world. Being the long-term, exclusive project partner for our customers, we guide you through all the steps of planning, building and operating your AAC factory. We are a full technology partner, not just a machine supplier, resulting in maximum value creation for our customers. Together we build your success!

Our corporate headquarters, operations and the manufacturing sites are located in Oldenzaal (the Netherlands) with a support office in Hilversum (the Netherlands), and sales representatives in the Americas, Middle East and South East Asia.
