PANELS

CLADDING PANELS

Aircrete Cladding Panels are unique AAC products for façade applications. The product is **extremely light** and can be as thin as 35mm; it is suitable to be directly applied on the exterior of any building.

- Standard length of 2 meters
- Customized surface design
- Extra heat insulation layer
- Direct installation on concrete/steel structure

DENSITY	THICKNESS (mm)	LENGTH (mm)	HEIGHT (mm)
A-500 (standard)	35 - 60	≤2000	600

Dimensional accuracy: as per EN 77-4 for thin layer mortar TLMB table 2

With decades of experience and sales in over 100 different AAC plants in 20 countries on 6 different continents, Aircrete Europe is the recognized global leading developer and manufacturer of Autoclaved Aerated Concrete (AAC) machinery and technology for the production of AAC panels and blocks

We design and deliver the most innovative turn-key AAC plants and cutting-edge plant technology around the world. Being the long-term, exclusive project partner for our customers, we guide you through all the steps of planning, building and operating your AAC factory. We are a full technology partner, not just a machine supplier, resulting in maximum value creation for our customers. Together we build your success!

Our corporate headquarters, operations and the manufacturing sites are located in Oldenzaal (the Netherlands) with a support office in Hilversum (the Netherlands), and sales representatives in the Americas, Middle East and South East Asia.
